⁴ Calculated based on the number of outstanding CBFIs as of September 30th, 2017, excluding the CBFIs issued that are not entitled to receive distributions until such properties are in operation (a total of 821'946,083 corresponding to 494'273,561 certificates with economic rights as of June 30th, 2017, plus 327'672,555 CBFIs issued during September 2017).

"The last couple of months have been critical in crafting FibraHotel's strategy as the leading hotel company in Mexico. During the quarter we agreed to the acquisition of the Fiesta Americana Condesa Cancun, a unique 507 room all-inclusive resort in a prime beach location in Cancun. This is our first asset in the beach resort segment which further diversifies our revenue by adding a dollar generating asset with different demand drivers and helps reduce the temporality of results throughout the year. As part of this transaction, we instituted a Ps. \$10 billion equity shelf registration program and successfully placed the first issuance of ~330 million CBFIs for ~Ps.\$ 4.5 billion. This program and capitalization will help us both strengthen our competitive position and fund our short term growth initiatives including the four full service hotels under development, while at the same time maintaining a strong balance sheet and allowing us to take advantage of additional opportunities. We had a very successful offering with strong support from existing and new investors which resulted in a significantly oversubscribed order book of both local and international investors. This issuance will create a temporary impact in our distributions during the next two quarters as we will have a larger CBFI base and the full contribution of the acquisition will be seen in Q1 2018, even when we will not be charging an additional advisory fee related to the offering until the acquisition closes. Operationally, the quarterly results were impacted by natural phenomenons including two earthquakes in September 7th and 19th, as well as hurricanes and floods which included canceled events and business trips as well as generally weaker lodging demand, especially in September. Comparable property RevPAR grew 5.6% y-o-y which is still above inflation but lower than what we had been posting earlier in the year. This deceleration in top line growth impacted margins as we continued to have more occupied rooms, an increase in energetic costs, and one-off costs related to the earthquake which we were not able to offset. The earthquake impact has continued in October but we believe it was a one-off event and are focused on getting the portfolio back to its operating efficiency. Finally, including the aforementioned impacts including the issuance dilution, the distribution for the quarter will be 17.28 per CBFI." said Simón Galante, CEO FibraHotel.

Additional portfolio information

- On August 15th, 2017 FibraHotel announced an agreement to acquire the Fiesta Americana Condesa Cancun resort hotel with 507 all-inclusive rooms for a purchase price of Ps. \$2,892 million in a sale and leaseback transaction with Grupo Posadas. The transaction is subject to certain closing conditions and is expected to close in the beginning of 2018.
 - As part of the agreement FibraHotel and Grupo Posadas will invest ~Ps. \$60 million each to renovate public areas without closing the hotel during 2017 and 2018. Together with the recent room renovation, this will represent an investment of over Ps. \$400 million in the hotel
 - The Fiesta Americana Condesa Cancun hotel is an iconic all-inclusive five star resort hotel in a prime location with over 200m of beach front in a land plot of over 40,000m2 in the *zona hotelera* region of Cancun in Mexico. The hotel has 15 consumption centers, including five specialty restaurants, five bars, spa, over 1,100 m2 of meeting and event space, a kid's club and other amenities. This resort operates under the all-inclusive model; where guests pay a single flat rate for a package that includes food and beverage in addition to lodging
 - Cancun is the largest hotel market in Mexico with over 68,000 hotel rooms of which ~70% are all-inclusive. A total of over 10 million passengers arrived in Cancun's airport in 2016 of which over seven million were international
 - The acquisition will represent FibraHotel's first property in the resort segment, which we believe could open an important new channel for growth in the future. This access will also provide us with the opportunity to increase its U.S. dollar-denominated revenues and add diversification to our portfolio with a vision of becoming Mexico's leading hotel owner across all segments
- Impact from natural phenomenons (earthquakes and hurricanes) During September, Mexico suffered two significant earthquakes as well as several hurricanes in the region which impacted FibraHotel in the following ways: (i) there was no significant impact to associates or hotel guests, (ii) there was some material damages at certain hotels but no structural damage at any property, (iii) 78 of 79 hotels are operating and the remaining hotel will re-open in the next couple of months, (iv) Insurance claims for the damages and business interruption are in process, and (v) the events caused a decrease in hotel room demand as well as several reservation and event cancelations during the months of September and October.

Public Offering of Ps. \$4,505 million.

On September 14th, 2017, FibraHotel finished its third Public Offering in the Bolsa Mexicana de Valores and internationally under Rule 144A and Reg S. FibraHotel placed a total of 327,672,522 CBFIs at a price of Ps. \$13.75 for a total of Ps. \$4,505,497,177.50. The proceeds will be used for (i) the acquisition of the Fiesta Americana Condesa Cancun hotel, (ii) investment in on-going and new hotel developments, (iii) temporary reduction in debt, and (iv) other corporate uses. After the offering and as of this date, FibraHotel has a total of 827′074,288 CBFIs of which 821′946,083 CBFIs have economic rights.

Illustrative non-stabilized portfolio of full service hotels

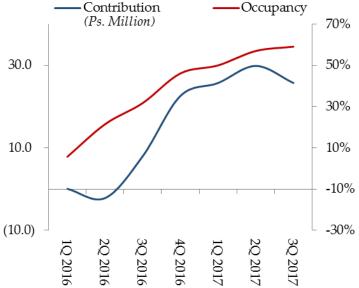

As part of its investment process, FibraHotel has added a significant number of developed rooms to its portfolio over the past couple of years. These hotels are currently in their stabilization period and therefore FibraHotel does not believe that their current contribution to quarterly results is indicative of their full potential for generating cash flow. FibraHotel selected a sample of its five largest development hotels opened during 2016 to illustratively show their operating and finance trends. This illustrative portfolio includes only a portion FibraHotel's total portfolio of non-stabilized hotels, which in total represent Ps. \$2,953 million in investments or 24% of FibraHotel's properties. For more detail on the entire non-stabilized portfolio please refer to page 11 of this document.

<u>Portfolio Summary</u>: The illustrative portfolio is composed of five full-service hotels developed by FibraHotel and opened during 2016. These hotels represent over Ps. \$1,500 million invested or over 13% of FibraHotel's assets.

About FibraHotel

FibraHotel is a Mexican trust created primarily to acquire, develop and operate hotels in Mexico. Our objective is to provide attractive returns to our CBFI holders, through stable cash distributions and the appreciation of our real estate assets. Also, we will aim to have a high quality hotel portfolio, through the affiliation to different hotel brands and renowned operators, as well as geographic and segment diversification.

Under Mexican laws, Fibras must invest at least 70% of its assets in real estate for lease, among other requisites. Additionally, Fibras must distribute in cash at least once a year 95% of taxable income to its CBFI holders. Such characteristics, together with a solid performance of the real estate market in Mexico and a team with over two decades of real estate and hotel experience, make FibraHotel an attractive investment vehicle.

FibraHotel is internally managed by Fibra Hotelera, S.C., and is externally advised by Administradora Fibra Hotelera Mexicana, S.A. de C.V whose key executives have over 60 years of combined experience in real estate development and operations and hotels in Mexico.
